

LOOKING FOR OFF-THE-SHELF KNEE BRACE SOLUTIONS?

FUNCTIONAL KNEE BRACE

The DeRoyal WEB is an excellent brace for prophylactic or post-injury functional knee bracing for patients with ligament instabilities. The WEB is lightweight by virtue of its hollow-core and twin-wall carbon fiber construction. The “Comfort-Cuff” and adjustable strapping system guarantee a comfortable fit, which helps prevent migration, thus encouraging long-term patient compliance.

Indications: Moderate to severe ACL, PCL, MCL, LCL, and combined ligament instabilities.

DeRoyal Web Features and Benefits

Full-Body Design	Offers greater soft tissue coverage, which allows for more uniform compression and support
4 Bar-Linkage Hinge Design	Allows for smooth motion and helps prevent migration
Hollow-Core and Twin/Wall Carbon Fiber Material	Lightweight strength and support
Neoprene Liner	Provides warmth and helps prevent migration
Comfort-Cuff	Helps prevent migration
Pivoting Straps	Allows the straps to move with the leg muscles as they contract to prevent migration
Elasticized Straps	Provides increased comfort and soft tissue compression resulting in increased compliance
Extension Stops	Optional extension stops
Undersleeve	Included with every brace

Product #	Size	Left or Right	Sizing Chart		
			Size	Calf	Thigh
14550105	Small	Left	Small	10"–12"	15"–17"
14550106	Medium	Left	Medium	12"–14"	18"–20"
14550107	Large	Left	Large	14.5"–16"	20.5"–23"
14550108	Extra Large	Left	Extra Large	16.5"–18"	23.5"–26"
14550205	Small	Right	Measure leg circumference 8" above mid-patella and 8" below mid-patella		
14550206	Medium	Right			
14550207	Large	Right			
14550208	Extra Large	Right
